

CLUB LEAGUE PORTAL

An easier way to run your club league.

A practical, branded league portal - ready to make your results clearer for every athlete.

Your club gets one clear place for results, points and progress.

Pricing & implementation prospectus

IMPLEMENTATION

R12,500

Live in approximately 5 working days*

*From receipt of the agreed information and files.

Your league should not live in spreadsheets and WhatsApp messages.

The portal gives athletes a reliable, public view of the league while keeping result administration simple for the club.

For athletes

See current rank, points, race history and the next person to chase.

For administrators

Upload results, recalculate automatically and keep one consistent points table.

For the club

A club-branded home for the league that is ready to share with members.

What your club receives

The core system is already built and working. Your implementation configures it for your club.

1

Public leaderboards

Separate Run and Walk views, clear rankings and a current league overview.

2

Athlete profiles

Individual pages show race history, finish times, points and close rivals.

3

Protected result uploads

An authorised administrator uploads CSV or Excel results and the table recalculates.

4

Transparent points rules

A public points page makes the scoring approach easy for athletes to understand.

Built for a club league, not a generic race-results website.

Simple for members. Manageable for your committee.

Implementation: allow 5 working days.

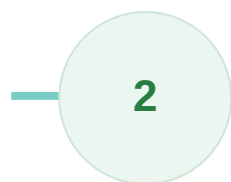

We allow enough time to set up the league properly, check the data and hand it over with confidence.

Day 1

Set-up

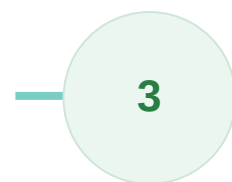

Receive branding, rules, categories and sample results.

Day 2

Configure

Apply club identity and points configuration.

Days 3-4

Validate

Import results, resolve file issues and test the rankings.

Day 5

Launch

Deploy, check access and hand over the upload process.

Timing assumes the required information is supplied promptly and the initial historical data is in CSV or XLSX format.

A clear, fixed-price starting point

IMPLEMENTATION

R12,500

Once-off setup for one club.

Includes configuration, historical result import, testing, deployment and a handover session.

ONGOING HOSTING & SUPPORT

R500 / month

For hosting, basic support and the day-to-day running of the portal.

The fixed implementation includes

- One club-branded portal
- Current feature set
- One branding review
- CSV/XLSX result files

Custom functionality, major historical data clean-up and non-standard scoring are scoped separately before work begins.

What we need from your club to get started

Nothing complicated - just the information that makes the league yours.

- | | | |
|----------|----------------------|---|
| 1 | Club identity | Logo, preferred colours and the public name of your league. |
| 2 | League rules | Points tables, age categories, run/walk requirements and season approach. |
| 3 | Race results | Historical and current results in CSV or Excel format where possible. |
| 4 | Club contact | One person to answer questions and approve the final set-up. |

If your files need attention, we will flag it early and agree the additional work before continuing.

READY WHEN YOUR CLUB IS.

A clear league view is one of the simplest ways to keep members engaged and your committee in control.

Next step

Send through your logo, points rules and a sample result file. We will confirm the implementation date and get the portal underway.

Club League Portal

A practical league portal, built around the way clubs actually work.
